MEMORANDUM FOR: SR/COP/Plans

VIA : SR/COP/FI

SUBJECT : Unconventional Warfare Capabilities Report

REFERENCES : a. SR/COP/PL Memo to CSR/DOB dated  
10 February 1961, subject: "CINCAL's  
Revised U/W Requirements"  
b. Memo from C/WPS to CSR Division dated  
8 February 1961, subject: "CINCAL's  
Revised U/W Requirements"

1. After careful consideration, the decision to accept the revised CINCAL targets on a programmed basis was reached by SR/DOB. Although the AEDEPOT Program does have trained agents who could be slotted against the targets, it was unanimously felt by C/DOB, C/OPS, and C/SA&E that a more realistic approach would be through planned programming. This will permit the Project a certain amount of flexibility in formulating team groupings and slottings. The current optimistic note in SA&E contacts and recruitments leads us to the conclusion that this type of approach is the most realistic. We are quite confident that this will have positive results and will strengthen future planning of Project asset training and tentative commitment.
